

monocouche& thistle hardwall

Posted by paul mclarnon - 2009/07/05 23:11

hi there

i also bought a quatro machine from lewis 4 years ago:angry: :laugh: it works very well after overcoming about 5000 teething problems:laugh: at the moment i am spraying thistle hardwall and have been for the last 6month on large social housing project

it works very well with this material, i just recently broke my spraygun do you know where i can get a replacement? its a push in gun

=====

Hi Paul,

Sure, if you need a spray gun just order from the site:

<http://www.utiform.co.uk/contact/hire-service-spares/nick.html>

You can either go and pick one up or have it delivered to you on-site.

Let me know the part number and I will probably have one ex stock.

:)
