---

had my quattro 3 years now and backup was totally useless after using my own machine ,pft and m tec i can honestly say aprt from a few minor things. example water connection on machine being plastic not brass and located to far into the machine body.in my opinnion the quattro is a good machine but lewis britain let utiform down big style.so i hope he has f\*\*\*k all to do with utiform now.

He doesn't.

If you need accessories, then there is a parts and service number on the website and you'll speak to Nick.

sorry for my rant there scot but had a really bad time with that  
w\*\*k\*A FEW YEARS AGO I SHALL TREAT YOUR FORUM WITH A BIT more respect now i know  
hes gone

Apology accepted. Yes, I can well understand that it must have been VERY frustrating not to be able to get after-support and service. I can't comment because I don't know about any history between you. But I can say I think you'll find things VERY different now.
