

## Instant Messaging?

Posted by Peter Huddlesfied - 2009/06/01 11:12

---

Hi Scott, can you install an instant messaging facility on here so that we can talk direct with other members?

Hi Pete. Yes I will do this over the next few days. The forum only went up yesterday and of course I'll address and implement any suggestions that I can.

Instant Messaging is on it's way! B)

---

Pete,

You now have a Private Messaging Facility on the Forum.

Simply go to the person's profile who you want to speak to, and just under their avatar you will see PM. That will open up the messaging component to send a personal message to that person.

Isn't that really why most people join forums anyway? But anyway, I'm sure I don't care. If someone wants a PM component so that they can stir up shit, then let them get on with it. :laugh:
