#### Utimix C40 Continuous Mixer Characteristics

##### FEATURES:

- Mixes all sorts of premixed mortars.
- The mixing shaft transports the material to the mixing tube, where the material is mixed with water, which is dosified with a flow meter.
- Complete separation of dry and wet material.
- Electric control box is sealed to avoid damage from water or dust.
- The water dosifying system is installed in the machine.

##### BENEFITS:

- Can be used in combination with mixing pumps and mortar pumps.
- The hopper capacity is 75 l.

##### ADVANTAGES:

- Easy to take apart for easy transport.
- Easy to use and low maintenance.
- Low filling height of 100 cm and large hopper capacity of 75 l.
- Continous separation of dry and wet material.

Standard equipment:

- Flow meter 1000 l/min
- Water pump.
- Cleaning tools.
- Warranty certificate.
- CE certificate.
- Instruction manual and parts book.

Recommended equipment:

- 5 m electric cable
- 5 m water hose 3/4 + suction valve

Technical data :

	single-phase	three-phase
Mixing voltage	230V/50Hz	400V/50Hz
Mixing motor power	2 Kw	3 Kw
Electrical connection	Schuko	3P+N+T 32A/6h
Water pressure required	2 bar	2 bar
Mixing capacity	25 l/min approx. (standard)	25 l/min approx.
Mixer weight	95 Kg approx.	95 Kg approx.
Size LxWxH (mm)	2145 x 610 x 975	2145 x 610 x 975
